Benefits and Effects

## | 중고나라 mobile app outcome |

Consumers, whose wallets have become thinner due to the recession, prefer to use second-hand trades instead of new ones

As a result, second-hand transaction volume is also increasing.

| Existing used-trading application |

헬로마켓

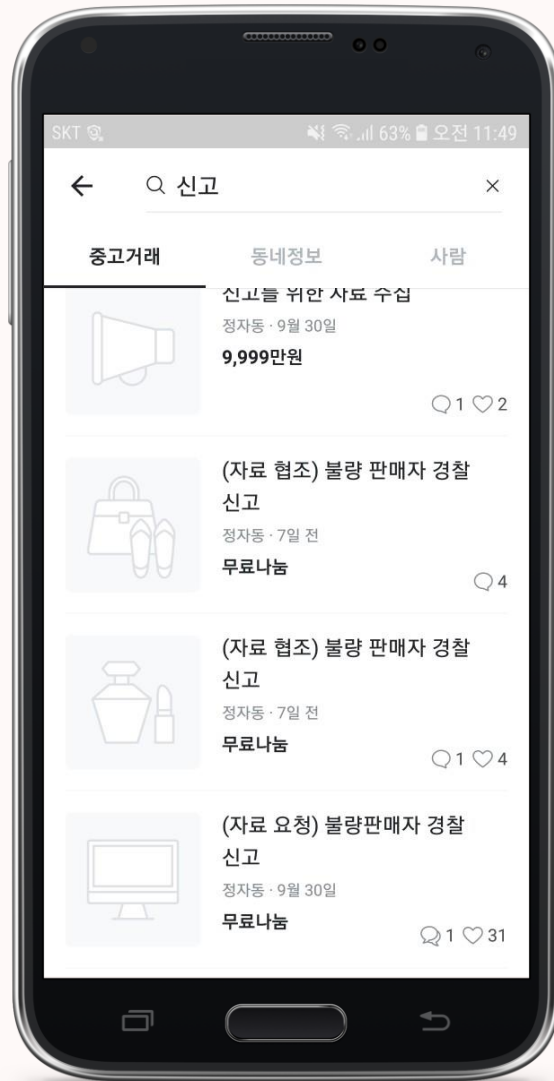

번개장터

중고나라

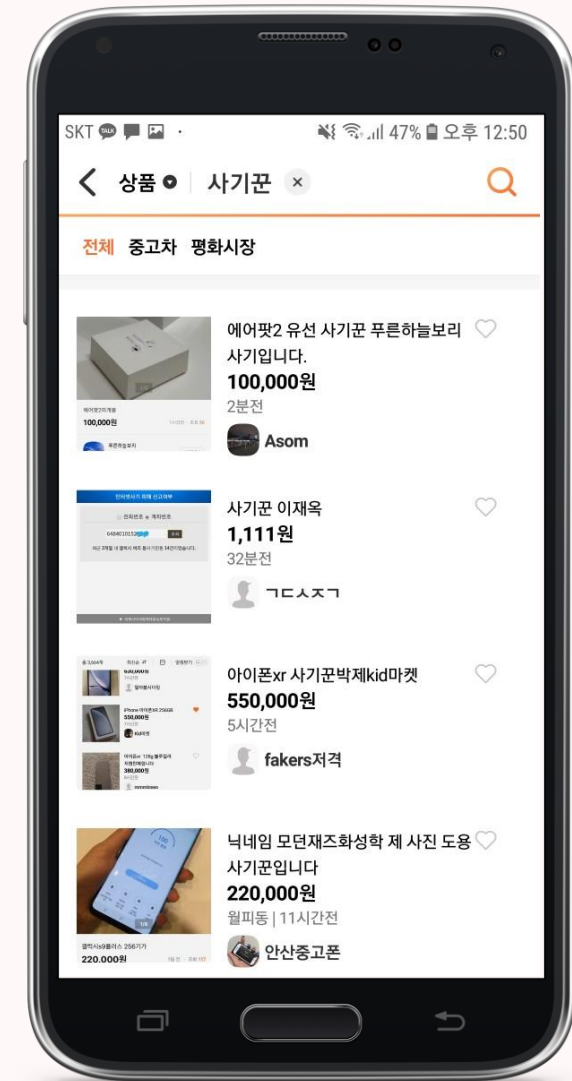

당근마켓

There are many scams  
as there are many users.

Efficient management of  
the notice board is needed

# SSH Shop

: Safe Second-Hand Shop

## Project Goal

### 1. Buyers can see product by video

Request seller to show the product (live streaming)

### 2. Make direct dealing conveniently

Location is shown at each product

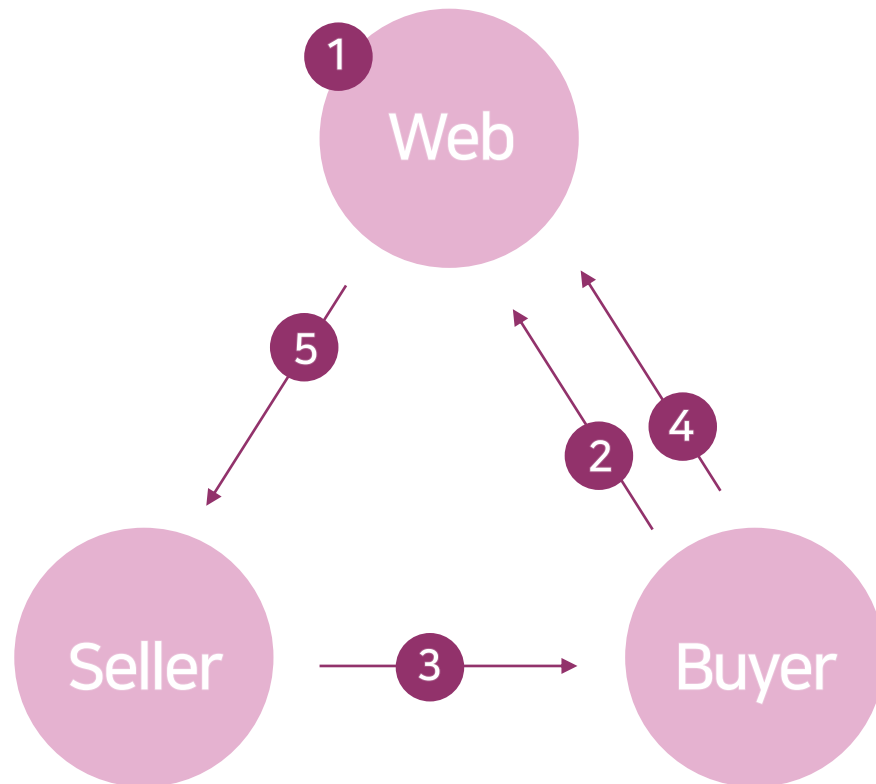

Communicate by messenger between Seller - Buyer

### 3. Make indirect dealing safely

Develop safe - dealing mechanism

## Project Goal

| safe-indirect dealing |

1. Web manager intervenes dealing
2. Web manager keeps money from buyer
3. Seller sends product
4. If buyer satisfies product then confirm
5. Web manager transfer money to seller
